Launch Program

Ambassador Opportunities

AtlasSportsAI is building more than a referral program. The Ambassador track is a launch distribution layer for creators, athletes, coaches, communities, and operators who can help grow the platform while the product expands across sports.

Who Fits

- Sports creators, streamers, podcasters, and short-form video creators.
- Athletes, former athletes, trainers, coaches, sports parents, and local sports leaders.
- Discord community owners, betting-content educators, fantasy communities, and sports data creators.
- Students, campus sports voices, and highly connected local promoters.

What Atlas Provides

- Unique Ambassador code and tracked attribution path.
- Premium site access in 7-day activity windows.
- Dashboard, probability, EV, market, slip, stat, and injury report tooling.
- Program documentation, media guide, and launch talking points.
- Access to new product updates as MLB, AtlasGPT, mobile app, and additional sports come online.

Growth Paths

Track	Opportunity	Best Fit
Creator	Unlimited commission potential, work at your own pace, build your own content style, and stay onboard after launch if performance and conduct are strong.	Short-form creators, streamers, sports personalities, local promoters, and high-output sellers.
Creative Leader	Top Ambassador associates may be considered for a fully remote team-lead role with base salary plus commission after the launch period.	Organized creators who can lead other Ambassadors, coordinate campaigns, and drive consistent signups.
Creative Programmer	Ambassadors who excel while producing strong content may be considered for a salaried content/media team lead role for Atlas advertising and marketing.	Video editors, designers, campaign builders, ad creators, and content operators.
Creative Partner	Ambassadors who excel across sales, content, team leadership, and technical/product interest may be considered for upper management after launch with a strong base salary.	Operators interested in growth, programming, product direction, creator management, and long-term Atlas leadership.

Product Roadmap Talking Points

- NBA model and dashboard are live.
- MLB engine is in active development.
- AtlasGPT is planned as an AI helper for board review, slip explanation, and model context.
- A dedicated app is on the roadmap for alerts, premium access, and mobile workflows.
- The model architecture is moving toward a Sobol / Quasi-Monte Carlo simulation engine.

AtlasSportsAI Ambassador Opportunities. Opportunity depends on valid sales, compliance, product availability, and launch timing.
