

MEDIA GUIDE

Atlas wants Ambassadors to create in their own voice while staying accurate, compliant, and clear about what Atlas does. Use the tools and platforms that help you reach your audience, as long as the content follows the conduct requirements.

- TikTok, Instagram, YouTube, Twitch, X, Facebook, Discord, podcasts, blogs, newsletters, livestreams, and local community channels.
- Editing tools, AI writing helpers, design software, screen recording tools, captions, analytics tools, and scheduling platforms.
- Personal commentary, educational breakdowns, product walkthroughs, screenshots, reaction content, and community Q&A.
- Atlas-provided graphics, approved screenshots, public-facing dashboard views, and approved talking points.

- AtlasSportsAI is a sports analytics and model-driven information platform.
- Atlas provides probabilities, EV views, slip outputs, market context, injury context, and model diagnostics.
- Atlas is expanding from NBA into MLB and additional sports.
- Atlas is building toward AtlasGPT, a mobile app, and a Sobol simulation engine.

Use clear language in posts, captions, streams, pinned comments, or link pages:

"AtlasSportsAI provides analytics and model information. No pick, projection, or slip is guaranteed."

- Show how to read the probability tab, EV tab, stat hub, injury report, or slips page.
- Explain why model probability and market EV are different.
- Walk through how Atlas organizes a slate without claiming certainty.
- Create "what I look at before tip" content using public dashboard sections.
- Share launch updates, new sports coming, and AtlasGPT/app roadmap content.

- "Guaranteed win", "lock", "risk-free", "free money", "can't lose", or similar claims.
- Misleading screenshots, fake balances, fake user claims, or fake performance history.
- Any content targeting minors or encouraging irresponsible gambling behavior.
- Private operational screenshots, unreleased model internals, customer data, or private Discord content without approval.
