

AtlasSportsAI Ambassador Conduct Requirements

Required Brand Standards, Activity Expectations, and Program Compliance Policy

Internal Program Document | AtlasSports.AI Ambassador Program

!	Core Standard Approved Ambassadors represent AtlasSportsAI in public. These standards protect the brand, customers, creators, and the Ambassador Program while giving Ambassadors room to promote in their own voice.
---	---

Important: AtlasSports.AI is an informational and statistical analysis platform. These documents are program operating policies and do not replace a signed Ambassador Agreement or legal review.

How to Use This Document

Use this document as an internal operating policy and onboarding reference. Ambassadors should review the full policy before promotion begins and should escalate unclear situations to Atlas leadership before taking action.

**SECTION
01****Program Role and Core Standards**

AtlasSportsAI Ambassadors are independent program participants who help introduce Atlas to relevant audiences, creators, communities, and potential paid customers. Ambassadors may create content, share approved codes or links, and discuss Atlas in their own voice, but they must represent the platform honestly and professionally at all times.

**Independent Program Status**

Ambassador participation does not create guaranteed employment, wages, salary, or income. Any future employment, salaried role, team-lead role, or management opportunity must be approved separately in writing by Atlas.

Core Standard	Professional Requirement
Honesty	Promote AtlasSportsAI accurately and without misleading claims.
Brand integrity	Do not misrepresent Atlas, its technology, its roadmap, or the Ambassador Program.
Responsible use	Do not encourage irresponsible gambling behavior, excessive spending, or participation by minors.
Professional communication	Communicate respectfully with users, creators, communities, Atlas staff, and other Ambassadors.
Compliance	Follow Atlas policies, platform rules, disclosure requirements, and all applicable laws.

**SECTION
02****Accurate Positioning and Prohibited Claims**

AtlasSportsAI should be positioned as a sports intelligence and statistical analysis platform. Ambassadors may explain that Atlas helps users evaluate probability, expected value, slip outputs, market context, injury context, and model diagnostics. Ambassadors may not present Atlas as guaranteeing outcomes or as a sportsbook.

Safe / Approved Positioning	Do Not Say
AI-driven sports intelligence	Guaranteed wins
Model-backed sports research	Free money
Use data instead of guessing	Risk-free profit
Informational and entertainment purposes	This will 100% hit
Compare probability, confidence, EV, and trends	Bet this now
Atlas does not accept wagers	Atlas is a betting app or sportsbook
My personal lean or opinion	Atlas guarantees this play

- No guaranteed profit, risk-free, can't-miss, or guaranteed-outcome language.
- No fake screenshots, fake earnings, fake customer results, fabricated testimonials, or fake performance history.
- No claims that Atlas is affiliated with PrizePicks, DraftKings, FanDuel, Underdog, Sleeper, the NBA, MLB, NFL, or any sportsbook/operator unless Atlas authorizes the claim in writing.
- No financial, legal, gambling, investment, or tax advice.

- No instructions encouraging users to gamble beyond their means or ignore applicable laws in their jurisdiction.

!	Creator Confidence Language Ambassadors may use personal excitement or opinion-based phrases only when the context is clear. A phrase such as “my favorite spot” or “my lean” is acceptable only when it is not presented as an Atlas guarantee, profit promise, or guaranteed outcome.
---	--

SECTION 03

Brand, Media, and Platform Conduct

Ambassadors may use Atlas-provided assets, approved public-facing dashboard views, and their own creative work. The brand should always be presented as a serious sports intelligence platform, not as a low-quality betting advertisement or scam promotion.

Area	Required Conduct
Logo and visuals	Use the Atlas name and visuals accurately. Do not distort, alter, imitate, or misuse the logo in a way that misrepresents the brand.
Authority	Do not imply you are an employee, owner, executive, developer, or official spokesperson unless Atlas authorizes that role in writing.
Payments and access	Do not collect customer payments, resell access, or sell Atlas content outside AtlasSportsAI checkout, the Atlas dashboard, official Atlas Discord/Premium areas, Atlas-issued Stripe checkout links, or Atlas-approved Ambassador codes/links.
Premium content	Do not leak premium content, internal model details, private Discord content, customer data, or private operational information.
Platform behavior	Do not harass users, spam communities, bypass moderators, mass-message users through unauthorized tools, or violate platform rules.

**SECTION
04****Disclosure and Responsible Promotion**

Any Ambassador or creator who receives compensation, referral payouts, bonuses, free access, discounts, or other program benefits must disclose that relationship clearly when endorsing or promoting Atlas. The disclosure should be easy to see, placed with the endorsement, and repeated in live or long-form formats when appropriate.

Context	Disclosure Example
General content	I am an AtlasSportsAI Ambassador and may earn a referral payout if you sign up with my code.
Livestream	This stream includes an AtlasSportsAI sponsor/ambassador mention. I may earn from eligible paid signups.
Short-form video	AtlasSportsAI Ambassador link/code. Informational only. No guaranteed outcomes.
Hashtag option	#ad, #sponsored, #AtlasSportsAIPartner

This disclosure structure aligns with FTC guidance that material connections - including financial relationships - should be disclosed in a clear and hard-to-miss way. The FTC guidance specifically explains that financial relationships should be disclosed and that disclosures should be placed with the endorsement itself, not hidden at the end or behind “more.”

SECTION 05

Activity, Communication, and Program Status

!	No Sales Quota - But Sales Are Expected Atlas does not impose a fixed sales quota. However, this is a performance-based launch opportunity. Ambassadors are expected to communicate consistently, pursue real customer growth, and generate valid paid customer signups over time.
---	---

Status Rule	Policy
30-day sales consistency review	If an Ambassador generates no valid paid customer signups during a rolling 30-day review period after activation or after the last valid signup, Atlas may automatically deactivate the Ambassador opportunity, portal access, premium access, and future code eligibility.
7-day inactivity rule	If seven consecutive days pass with no communication to Atlas and no valid paid customer signup, documented outreach, or recorded sales activity, the system may automatically deactivate the Ambassador opportunity.
No guaranteed reinstatement	A deactivated Ambassador may request review, but reinstatement is not guaranteed and is subject to Atlas approval.
Existing approved payouts	Previously earned valid payouts remain subject to the payout policy, fraud review, chargeback/refund status, tax onboarding, and agreement terms.

This status policy is not intended to create a sales quota. It is intended to prevent inactive accounts, abandoned codes, and untracked Ambassador relationships from remaining open indefinitely.

**SECTION
06**

Enforcement, Removal Triggers, and Review

Atlas may suspend access, cancel payout eligibility, remove an Ambassador from the program, deactivate codes, reject signups, or terminate the Ambassador opportunity if conduct or account activity creates risk for users, the brand, or the integrity of the program.

- Fraudulent signups, chargeback abuse, duplicate account abuse, self-referral manipulation, or payment gaming.
- Repeated misleading marketing, prohibited claims, fake results, or failure to disclose compensation.
- Violation of platform rules on TikTok, YouTube, Instagram, X, Twitch, Kick, Discord, Reddit, Facebook, or other channels.
- Harassment, hate speech, threats, impersonation, spam, unauthorized scraping, or platform abuse.
- Conduct that harms Atlas users, AtlasSportsAI, the Ambassador Program, or the integrity of Atlas data, payments, or brand reputation.
- Failure to communicate or show activity under the 7-day inactivity rule or failure to generate or attempt to show valid customer growth during the 30-day consistency window.

SECTION
07

Ambassador Acknowledgment

By participating in the Ambassador Program, the Ambassador agrees to follow these conduct standards and understands that compliance is required for portal access, payout eligibility, code status, premium access, and future program opportunities.
