

AtlasSportsAI Ambassador Payout Structure

Launch Compensation, Eligibility, Validation, and Activity Rules

Internal Program Document | AtlasSports.AI Ambassador Program

!

Core Payout Rule

Payouts are tied to valid paid customer signups, approved attribution, completed secure payout onboarding, and compliance with Atlas conduct requirements. Nobody is paid for recruiting alone.

Important: AtlasSports.AI is an informational and statistical analysis platform. These documents are program operating policies and do not replace a signed Ambassador Agreement or legal review.

How to Use This Document

Use this document as an internal operating policy and onboarding reference. Ambassadors should review the full policy before promotion begins and should escalate unclear situations to Atlas leadership before taking action.

SECTION 01

Program Overview and Definitions

This document defines the launch payout model for approved AtlasSportsAI Ambassadors. The program is performance-based and does not create guaranteed income, wages, salary, or employment. Payout eligibility requires approved Ambassador status, valid paid customer signups, secure payout onboarding, tax onboarding where required, and compliance with Atlas policies.

Term	Definition
Valid paid customer	A real customer whose paid subscription is successfully processed, attributed to an approved Ambassador code/link, and not refunded, charged back, duplicated, self-referred, fraudulent, or otherwise rejected.
Direct Ambassador payout	The one-time payout earned by the Ambassador whose code/link is directly tied to the valid paid customer signup.
Sponsor payout	The one-time payout earned by a personally sponsoring Ambassador when their personally sponsored Ambassador produces a valid paid customer sale.
Launch bonus	A temporary launch incentive that may be reviewed for fraud, refunds, chargebacks, attribution disputes, and compliance issues before payout.
Active status	The Ambassador's current eligibility for portal access, code activity, premium access, payout eligibility, and program participation.

SECTION
02

Customer Signup Payouts

Signup Type	Ambassador Payout	Validation Rule
Monthly customer	\$5 one-time payout	Customer must become a valid paid monthly customer after any trial conversion and Atlas review.
Annual customer	\$25 one-time payout	Customer must become a valid paid annual customer with tracked Ambassador attribution.

!	Payout Basis The payout basis is 25% of the paid subscription sale connected to the approved Ambassador code or referral link. Renewals do not create recurring commissions unless Atlas creates a separate written agreement.
---	---

SECTION 03

Sponsor Payouts and One-Level Rule

Ambassadors may invite other Ambassadors into the program. Sponsor payouts are earned only when a personally sponsored Ambassador produces a valid paid customer sale. Nobody is paid for recruiting alone.

Sponsored Ambassador Sale	Sponsor Payout	Condition
Monthly customer sale	\$5 one-time payout	Sale must be valid and attributed to the sponsored Ambassador.
Annual customer sale	\$25 one-time payout	Sale must be valid and attributed to the sponsored Ambassador.

!	No Multi-Generation Compensation Sponsor payouts are single-level only. Ambassadors do not earn 3rd-generation, 4th-generation, or deeper branch payouts from people sponsored by sponsored Ambassadors. Reporting trees may exist for visibility, but compensation does not compound down unlimited branches.
---	--

**SECTION
04**

Valid Signup and Attribution Rules

- A signup must be connected to an approved Ambassador code, referral link, or approved manual attribution path.
- Free accounts, test accounts, duplicate accounts, fake accounts, self-referrals, refunded accounts, and chargebacks do not qualify.
- Atlas may reject or reverse signups connected to fraud, abuse, payment manipulation, code misuse, or misleading promotion.
- Attribution disputes may be reviewed by Atlas using Stripe metadata, portal records, code usage, timestamp data, and internal records.
- Atlas may hold payouts while refund, chargeback, fraud, compliance, or attribution review is pending.

**SECTION
05**

Access Rules and Activity Requirements

Access Rule	Policy
Premium access windows	Approved Ambassadors may receive premium site access in 7-day activity windows.
Renewal threshold	Every 2 valid paid customer signups may renew access for another 7-day period, subject to program rules.
Access pause	Access may pause if the renewal threshold is not met, if active status lapses, or if Atlas removes access for conduct reasons.
Separate from payout eligibility	Access is separate from payout eligibility and may be removed even when a valid payout is still pending review.

No Sales Quota - But Inactivity May End the Opportunity

Atlas does not impose a fixed sales quota. However, if an Ambassador generates no valid paid customer signups within a rolling 30-day review period, or if seven consecutive days pass with no communication and no valid sale or recorded activity, the system may automatically deactivate the Ambassador opportunity, portal access, premium access, and future code eligibility.

SECTION 06

Launch Bonuses and Milestone Bonuses

Launch Bonuses

Bonus	Amount	Rule
Monthly top performer	\$500	Highest valid paid customer count for the calendar month, subject to Atlas validation.
Leaderboard launch	Visibility bonus	Leaderboard may become public after 20 approved Ambassadors join, subject to Atlas approval.
First to 1,000	\$2,500 additional bonus	First Ambassador to reach 1,000 valid paid customer signups, subject to validation and compliance review.

Milestone Bonuses

Milestone	Bonus	Validation Rule
25 valid paid customers	\$100 bonus	Paid after Atlas validates customer status, attribution, fraud review, and chargeback/refund status.
100 valid paid customers	\$500 bonus	Paid after Atlas validates customer status, attribution, fraud review, and chargeback/refund status.
250 valid paid customers	\$1,500 bonus	Paid after Atlas validates customer status, attribution, fraud review, and chargeback/refund status.

1,000 valid paid customers	\$5,000 bonus	Paid after Atlas validates customer status, attribution, fraud review, and chargeback/refund status.
2,000 valid paid customers	\$10,000 bonus	Paid after Atlas validates customer status, attribution, fraud review, and chargeback/refund status.
Every additional 500 after 2,000	\$2,500 bonus	Paid after each additional 500 valid paid customer threshold is validated.

Milestone bonuses are launch incentives and may be reviewed for fraud, duplicate accounts, refunds, chargebacks, self-referral abuse, attribution disputes, and compliance issues before payout.

SECTION
07

Payout Timing, Holds, Reversals, and Tax Onboarding

- Payouts require completed secure direct-deposit or approved payout-provider onboarding.
- Payouts may require tax documentation, identity verification, or contractor onboarding before payment is released.
- Payouts may be held during refund, chargeback, fraud, compliance, attribution, or eligibility review.
- Atlas may adjust, offset, or reverse payouts tied to invalid or reversed customer payments.
- Final payout timing is governed by the written Ambassador Agreement, Stripe or payout-provider availability, Atlas review timing, and applicable law.
- Atlas may set minimum payout thresholds, batch payout dates, or administrative review windows in the portal or Ambassador Agreement.

**SECTION
08**

Examples and Common Scenarios

Scenario	Payout Result
Ambassador sells one \$20 monthly signup	Direct Ambassador earns \$5 one-time payout after validation.
Ambassador sells one \$100 annual signup	Direct Ambassador earns \$25 one-time payout after validation.
Sponsored Ambassador sells one \$20 monthly signup	Direct seller earns \$5; personally sponsoring Ambassador earns \$5 sponsor payout after validation.
Customer refunds or charges back	Signup becomes invalid; payout may be withheld, reversed, or offset.
Ambassador recruits someone who makes no sales	No sponsor payout is earned because nobody is paid for recruiting alone.
Ambassador has no communication or sales activity for 7 days	Program opportunity and access may automatically deactivate under the inactivity rule.

SECTION 09

Payout Disclosures and Final Rule

- This program is performance-based and does not create guaranteed income.
- Sponsor payouts are single-level only and are paid only on valid paid customer sales produced by personally sponsored Ambassadors.
- No Ambassador earns money merely for recruiting or for deeper branches of a referral tree.
- Atlas may create separate team competitions, visibility bonuses, or milestone challenges when total team thresholds are met.
- Atlas may modify, pause, or end launch incentives subject to written program terms and applicable law.

Final Payout Principle

Valid customer growth earns payouts. Recruiting alone does not. All payouts require compliance, attribution, payment validation, and program eligibility.
