

AMBASSADOR PROGRAM

PAYOUT STRUCTURE

This document defines the launch payout model for approved AtlasSportsAI Ambassadors. Payouts require approved Ambassador status, valid paid customer signups, completed secure payout onboarding, and compliance with the conduct requirements.

SIGNUP TYPE	AMBASSADOR PAYOUT	VALIDATION RULE
Monthly customer	\$5 one-time payout	Valid paid customer after trial conversion and review.
Annual customer	\$25 one-time payout	Valid paid annual customer with tracked Ambassador attribution.

A signup is not valid if it is refunded, charged back, fraudulent, duplicate, self-referral abuse, or otherwise rejected during Atlas review.

Ambassadors may invite other Ambassadors. Sponsor payouts are earned only when a personally sponsored Ambassador produces a valid paid customer sale. Nobody is paid for recruiting alone.

SPONSORED AMBASSADOR SALE	SPONSOR PAYOUT	CONDITION
Monthly customer sale	\$5	Sale must be valid and attributed to the sponsored Ambassador.
Annual customer sale	\$25	Sale must be valid and attributed to the sponsored Ambassador.

- Approved Ambassadors receive premium site access in 7-day windows.
- Every 2 valid paid customer signups renews access for another 7-day period.
- Access can pause if the renewal threshold is not met.
- Access is separate from payout eligibility and can be removed for conduct violations.

BONUS	AMOUNT	RULE
Monthly top performer	\$500	Highest valid paid customer count for the calendar month.
Leaderboard launch	Visibility bonus	Leaderboard becomes public after 20 approved Ambassadors join.
First to 1,000	\$2,500 additional bonus	First Ambassador to reach 1,000 valid paid customer signups.

MILESTONE	BONUS	RULE
25 valid paid customers	\$100 bonus	Paid after Atlas validates customer status, attribution, fraud review, and chargeback/refund status.
100 valid paid customers	\$500 bonus	Paid after Atlas validates customer status, attribution, fraud review, and chargeback/refund status.
250 valid paid customers	\$1,500 bonus	Paid after Atlas validates customer status, attribution, fraud review, and chargeback/refund status.
1,000 valid paid customers	\$5,000 bonus	Paid after Atlas validates customer status, attribution, fraud review, and chargeback/refund status.
2,000 valid paid customers	\$10,000 bonus	Paid after Atlas validates customer status, attribution, fraud review, and chargeback/refund status.
Every additional 500 after 2,000	\$2,500 bonus	Paid after each additional 500 valid paid customer threshold is validated.

Milestone bonuses are launch incentives and may be reviewed for fraud, duplicate accounts, refunds, chargebacks, self-referral abuse, attribution disputes, and compliance issues before payout.

- Payouts require completed secure direct-deposit and tax onboarding.
- Payouts may be held during refund, chargeback, fraud, or eligibility review.
- Atlas may adjust or reverse payouts tied to invalid or reversed customer payments.
- Final payout timing is governed by the written Ambassador agreement and payout provider availability.

This is not a pyramid or multi-generation compensation plan. Sponsor payouts are single-level only. If you personally sponsor an Ambassador, you may earn the listed sponsor payout when that Ambassador produces a valid paid customer sale. You do not earn 3rd-generation, 4th-generation, or deeper branch payouts from people sponsored by your sponsored Ambassadors.

An Ambassador may have many people in their referral tree for reporting and team visibility, but compensation does not compound down unlimited branches. Atlas may create separate team competitions or milestone bonuses when total team thresholds are met.

AtlasSportsAI Ambassador Payout Structure. This program is performance-based and does not create guaranteed income.
